FULL STACK DEVELOPER

Full-stack developer experienced in React, Next.js, and Node.js. Built and deployed production applications with authentication, real-time features, and cloud storage integration.

SKILLS

Languages : HTML, CSS, JavaScript, PHP, Typescript, Java

Frameworks/Libraries : React, Express, Tailwind CSS, Next Js

Tools/Technologies : NodeJS, MongoDB, Firebase, PostgreSQL

PROJECTS

AI ChatBot | Next Js, Typescript, PostgreSQL

Live: chat-cablex.vercel.app **Code:** github.com/Saurav-grg/chatbot

- Implemented full-stack chat UI using Next.js App Router and TypeScript, enabling routed, persisted conversations.
- Handling streaming responses and scroll behavior for dynamic message updates.
- Implemented Markdown rendering with syntax-highlighted code blocks and copy-to-clipboard functionality.
- Integrated authentication flow with NextAuth and provider (google, github) sign-in buttons

Blog Posting WebApp | MERN stack, ReactQuill

Live: zenith-quest.vercel.app **Code:** github.com/Saurav-grg/Blog-app-MERN

- Utilized React's useContext and useReducer for state management, providing a scalable and maintainable approach to handle CRUD operations for blogs.
 - Implemented text editing capabilities using ReactQuill, allowing users to style and format blog content dynamically.
 - Integrated Firebase for cloud-based thumbnail image hosting, ensuring efficient storage and retrieval of images with real-time updates.
 - Deployed the application using Vercel, making it accessible online and showcasing the ability to deploy full-stack applications.
-

EDUCATION

- **Bachelor in Computer Application**
Model Campus Damak, Damak-5, Jhapa

expected graduation, 2026
